

Now that the FCC has allowed Sinclair Broadcasting to use public airways and force the prime time airing of an anti-Senator Kerry program on stations they own you must, in fairness, require Sinclair to give Senator Kerry equal time (at the same rate and time slot/s). Senator Kerry should be permitted to televise anything he chooses and when he chooses.

I hope the FCC will not continue be a party to yet another of Sinclair's blatantly political attempt's to manipulate public opinion through their Broadcast holdings. The FCC should act immediately, not procrastinate until it is too late to air Senator Kerry's 'response' before the election.
Thank You
